Introduction

- Hi there, this is a self inspired latex beamer template for Leipzig university.

Motivation

● I didn't find anything in the internet. So, I decided to create one.

1st frame

- ► This is one of the section[1].
- ► Let's check for 2nd footnote [2].
- ► The footnotes will be added from the bottom. If you want to pull the footnotes towards red-black margin line then use \addfootspace{} at the end of the \frame{}.
- ► \addfootspace{} actually adds an additional vacant footnote (without counting that vacant footnote).
- ► To add more foot space add more \addfootspace{}.

[1]This is a long footnote. Here I am. Who am I?
[2]This is a 2nd long footnote. Here I am. Who am I?

2nd frame

- Here is the next section[3]
- Here I used two \addfootspace{}. Don't do \addfootspace{\vspace{1cm}}.

---

[3]This is a 2nd long footnote. Here I am. Who am I?

2nd frame: Subsubsection-1

● This is a test for sub-sub-section.

2nd frame: Subsubsection-2

● This is a test for sub-sub-section.
